The AWOC Severe 2015 Simulation WarnGen IBW Template Switch
Date: 04/26/2016

The following guide will walk you through switching out the WarnGen templates used for the AWOC 2015 Severe Simulation with the templates from the 14.3.1 Version of the WES-2 Bridge Test Case that contain IBW templates.

REQUIREMENTS: To perform this install, your WES-2 Bridge workstation has to have been updated to 14.3.1 versions of AWIPS-2 and WES-2 Bridge, the "w2b_test_case_14_3_1" case must be installed to your computer from the "WES-2 Bridge Test Case Installer Build 14.3.1" disk dated 03/09/2016, and the "KOUN_AWOCSevere" case must be installed from the "WES-2 AWOC Severe 2015 Simulation" disk dated 12/23/2015 (disks pictured below).

1. Using a terminal window while logged into your user account, change directories to the "KOUN_AWOCSevere" case localization directory.

```
cd /data1/wes_cases/KOUN_AWOCSevere/localizations/common_static/site/OUN
```

2. Move the existing WarnGen folder out of the way.

```
mv  warngen  warngen_old
```

3. Copy the WarnGen templates from the "w2b_test_case_14_3_1" case.

```
cp –R /data1/wes_cases/w2b_test_case_14_3_1/localizations/common_static/site/OUN/warngen  .
```

This completes the AWOC Severe 2015 Simulation WarnGen IBW template switch. If you have any questions or any errors that occur during this install process, contact Alexander Zwink (Alexander.Zwink@noaa.gov) or Dale Morris (Dale.A.Morris@noaa.gov) with any issues. If there are any questions with the AWOC Severe 2015 Simulation, contact Brad Grant (Bradford.N.Grant@noaa.gov)
